

WHITE-BOARD EXERCISE #8 OCTOBER 31, 2005

ALL QUESTIONS RELATE TO THIS
IMAGE [0704.PIC](#)

1. Is this a section of a root, stem, or leaf?
2. Is this a cross section or a long section of the structure?
3. Roughly draw and label the few diagnostic features that helped you identify this as root, stem, or leaf.
4. What features of this specimen make it “odd” and hard to easily recognize?
5. Using the specimen traits given above, explain what type of environment this structure is likely found in?
